Types of legal corporate entities available in VN

Regulated by Vietnam's law on enterprises:

- LLC = Limited Liability Company
- JSC = Joint Stock Company
- Partnership
- [Private enterprise = owned by one individual who shall be liable for all activities of the enterprise to the extent of all his or her assets. Each individual may only establish one private enterprise]

Which structure suits best your startup?

What should you ask yourself first?

- Alignment of interest with your partners?
- Money available/needed now vs. in 3m, 6m, 1y?
- Do you want/do you need outside investors? Now? in 3m, 6m, 1y?
- Where are your partners/investors?
- Giving away equity vs. debt?
- IPO/listing down the line? Where?

Types of legal corporate entities available

| | Required numbers of members | Required capital | Members' shares | Members' Liabilities |
|-------------|---|--------------------------------|--|--|
| LLC | 1-member LLC, or multiple member LLC (2 to 50 members) | Determined by the members | A portion of the contributed charter capital | Liable for the debts and other property obligations of the company only within the amount of capital contributed to the enterprise |
| JSC | 3 shareholders minimum | Determined by the shareholders | A percentage of shares | Liable for the debts and other property obligations of the company only within the amount of capital contributed to the enterprise |
| Partnership | 2 partners minimum | Determined by the partners | A portion of the contributed charter capital | Unlimited (to the extent of all of their assets) or limited liability (as above) |

Which structure suits you best?

| | Advantages | Disadvantages |
|-------------|--|---|
| LLC | Possible conversion to a JSC Corporate governance structure is relatively simple | Assignment of the capital may be done in limited circumstances and such procedure may involve onerous administrative procedures |
| JSC | Ability to mobilize the capital through the issuance shares Ability to issue multiple classes of shares Freely assign shares | Corporate governance structure is more complex than a LLC |
| Partnership | Corporate governance structure is relatively simple Suitable for small structures | Risky when unlimited liability partnership (personal assets involved) Unusual |

Case study – software development company

| | Management structure | Required license | Eligible for foreign and local investors | Accounting |
|-------------|---|--|--|--|
| LLC | Members' Council (MC), Chairman of the MC, and one General Director (GD) | Registration with the provincial department of planning and investment | Yes | Required to comply with Vietnam Accounting standards |
| JSC | General meting of shareholders (GMS), Board of management (BOM) and General director (GD) | As above | Yes | As above |
| Partnership | Partners' Council (PC), Chairman of the PC, general director (GD) or director | As above | Yes | As above |

Case study – software development company

Documents required to apply for a certificate of business registration (BRC) for a Vietnamese company

Timeline

- request for business registration in the standard form published by the authorized business registration body;
- charter of the company;
- list of members/shareholders/partners and ID documents;
- practicing certificates of the director or general director and other individuals in respect of enterprises conducting lines of business for which a practicing certificate is required by law.

10 working days from receipt of complete dossier by licensing authority

TAX INCENTIVES FOR TECH COMPANIES

| NOW (current legislation) | TOMORROW (new legislation effective from Jan 2014) |
|--|--|
| General CIT rate: 25% | General CIT rate: 22% (20% from 2016) |
| Tax incentives apply to: ✓ Newly established enterprises | Tax incentives apply to: ✓ New investment projects ✓ Expansion projects |
| Only few companies (restrictive list) in 'Sciences and Tech' benefit from incentives | The list of 'high tech' enterprises entitled to the incentives considerably extended |
| Incentives: ✓ CIT rate: 10% for 15 years ✓ 4 years tax exemption + 50% reduction of CIT payable for a maximum of 9 years | Incentives (no change): ✓ CIT rate: 10% for 15 years ✓ 4 years tax exemption + 50% reduction of CIT payable for a maximum of 9 years |

TAX INCENTIVES FOR TECH COMPANIES

From 1 January 2014:

- Income from new investment projects in areas with especially difficult socio-economic conditions: economic zones, high tech zones
- Income from newly-invested projects in scientific research and technological development, application of high-tech as specified; high-tech incubation and high-tech incubator enterprises; venture investment in the development of high-tech as specified; investment in construction and commercial operation of high-tech incubation and hightech incubator enterprises; investment in development of specially important state infrastructure
- Income of agricultural enterprises that use high-technology

Tax incentives applicable to investment expansion

Entities currently operating in areas and business sectors that grant tax incentives may choose:

- Keep tax incentives according to currently operating projects for the remaining period (if any); or
- Apply a tax exemption or reduction on any incremental income.

TAX INCENTIVES FOR TECH COMPANIES

What is 'High Tech'?

Definitions under the Law on High Technologies:

- ✓ An high-tech enterprise means an enterprise turning out high-tech products, providing high-tech services and conducting high-tech research and development activities."
- ✓ High technology means a technology which has a high scientific research and technological development content; is integrated from modern scientific and technological achievements; can turn out environmentally friendly products of superior quality and utilities and high added value; and plays an important role in the formation of a new production or service industry or the modernization of an existing production or service industry.
- ✓ Hi-tech activities means hi-tech research, development, seeking, transfer and application; hi-tech human resource training; hi-tech incubation or hi-tech enterprise incubation; hi-tech production and hi-tech service provision; and hi-tech industrial development activities.
- ✓ Hi-tech product means a product turned out with high technology, which is environmentally friendly and has superior quality and utilities and high added value."

CONCLUSION - 3 TIPS TO START WELL

- ✓ Manage the expectations of your partners, investors, bankers/lenders
- ✓ Document it well
- ✓ Compliance, compliance (regulatory, tax, corporate, contracts, HR)
